PUBLIC HEALTH PREPAREDNESS

The Scott County Health Department continues its efforts to be prepared for an all hazards disaster, whether it is a terrorist attack, disease outbreak or natural disaster such as a flood or tornado.

Plans are in place to deal with any public health hazard, emergency or health issue that could occur.

Training in all aspects of preparedness is an ongoing effort.

Member of Indiana State Department of Health District IX Preparedness District

SCOTT COUNTY HEALTH DEPARTMENT VISION STATEMENT

“The Scott County Health Department has been established to promote a healthy environment and a healthy lifestyle behavior. The promotion of health education and services are the ultimate goals of the Health Department. Programs for meeting these goals are well established and function under the broad guidelines of the Indiana State Department of Health.”

PUBLIC HEALTH IS:

“The art and science of preventing disease, prolonging life and promoting physical and mental efficiency through organized community effort.”

C. E. A. WINSLOW
